N.B. : All prices of A series gearboxes listed in this price list refer to UH..., UR, UD, NUH Versions

Salient Features :

- # High efficiency (0.95 to 0.97) geared motors allows for notable energy saving.
- # Very high transmission ratios, up to 1700:1 with stages.
- # Low temperature even in continuous duty, 24 hours-a-day applications
- # Optimally sized with a very compact design, these gearboxes offer the typical features required for heavy duty applications.
- # An anti-run back device is available upon request to allow rotation of the output shaft in one direction only.
